Col-Met Engineered Finishing Solutions Announces New Northeast Regional Manager

Rockwall, TX, February 23, 2016...Col-Met Engineered Finishing Solutions is pleased to announce that Curtis (Curt) Leach is joining our team in the Northeast as Regional Manager. Curt has more than 30 years experience in engineered industrial thermal systems as well as 25 years experience providing leadership for overall Innovative Solution Development, Sales, Marketing, and Project Management. Curt has contributed significantly to innovate US thermal processing methods. In fact, several industries today are now utilizing these methods and technologies as typical and standard processes.

Curt attended New Jersey Institute of Technology and College of New Jersey to pursue his Bachelor's of Science in Mechanical Engineering. He has also participated in trade organizations such as SME (Society of Manufacturing Engineers), PCI (Powder Coating Institute), CCAI (Chemical Coaters Association), AIMCAL (Association of International Metallizers, Coaters and Laminators) and TAPPI (Technical Association of Pulp & Paper Industries). In addition, Curt has published articles and patent applications in Metal Finishing, Industrial Paint & Powder, and Society of Manufacturing Engineers.

With Curt's extensive knowledge in the development of finishing systems, bringing new innovations to the market, and developing problem-solving solutions, we are extremely pleased he is joining our team and sharing his skills with our distribution partners in the Northeast Region.

"We are very excited to have Curt join our team, he will bring a wealth of knowledge and enthusiasm to the organization," Steve Houston, Chief Marketing Officer.

For questions, please contact Jennifer Egan, Marketing Manager, by emailing jegan@colmetsb.com.

About Col-Met: Col-Met Engineered Finishing Solutions is the market leader in spray booths, ovens, washers, AMU's and other finishing components, delivering value through our quality, service, people and engineering capabilities. Col-Met operates ethically and honestly with strong leadership and strong principles, each and every day. We challenge ourselves, and each other, to always make Col-Met an even better company than it was the day before. We do this by focusing on our core values of Honesty, Integrity, Growth, Diversity and believing that when you do the right things the right things will happen.
