BOOTH OPTIONS

Filter Window™ - A Col-Met Exclusive!

This kit allows you to replace one intake filter in a filtered product entry door with a 20" x 20" tempered viewing glass.

Utility Arm Parts Hangers

All steel, heavy-duty 300 lb. rated parts hanging system designed to span across a standard automotive booth and stores away to 5". Powder coated white.

- Optional Round Extension for Utility Arm Parts Hanger
- Optional Double Part Rest Extension for Utility Arm Parts Hanger

Light Fixture

UL® Listed, Class 1 Division 2 (sealed and gasketed), available as either inside or rear access. Powder coated white, and is designed for four Energy Efficient, 32 watt T-8 fluorescent bulbs (bulbs sold separately).

Manufactured exclusively for Col-Met Spray Booths.

Fold Away Work Table

18-gauge galvanized steel tabletop work area, 30" wide x 18" deep, that folds away to less than 2-3/4" and is designed to bolt into a standard 30" wide wall panel. Powder coated white.

Spray Gun Rack with Shelf

18-gauge galvanized steel shelf, 30" wide x 10" deep, designed to bolt into a standard 30" wide wall panel. Powder coated white, and features a hanging rod and multiple gun hangers.

Peelable Booth Coating

Environmentally-friendly, waterborne coating that will protect your paint booth walls, floor and ceiling from overspray. Easily removed for reapplication, this high-solids formula is available in both white and semi-transparent clear.
